

Singapore International Chamber of Commerce (SICC)

SICC is Singapore's longest serving, independent business association and has been helping businesses and Singapore since 1837. It chose Network Box as its Managed Security Service Provider over 5 years ago.

“Protecting IT infrastructure is essential for all businesses everywhere. In Network Box, we have a comprehensive and reliable network defence system working for us round the clock. More than that, we have a reliable partner which regularly upgrades its capabilities to protect its clients’ interests.”

Victor Mills, Chief Executive SICC

Trust the professionals and reduce cost

“Today's businesses are inextricably linked to the Internet. For businesses of all sizes, from micro-entrepreneurs, SMEs and MNCs the Internet is the essential tool for trade and commerce. Staying ahead of hackers and other cyber threats is a never ending, essential process. Attacks can happen at any time. Mitigating these threats requires round-the-clock monitoring, updating and protection. Most businesses neither have the resources, nor the expertise to protect their networks from new and emerging threats. Network Box helps them do this effectively and affordably.”

Jan van Leersum, Managing Director Network Box (SIN) Pte Ltd

Network Box HQ's ISO 9001 / ISO 20000 / ISO 27001 certified Security Operations Centre, ensures that customers' networks are protected against cyber threats, 24x7x365.
